

## Kicking Horse Coffee

Kicking Horse Coffee has been a part of the Planet Foods product line for over 10 years. By working directly with the independently owned company out of Invermere, Planet Foods has been instrumental in growing this product to be western Canada's #1 whole bean coffee. Kicking Horse Coffee is a company that, like Planet Foods, is **committed to the organic and fair trade movement.**

Kicking Horse Coffee was the second company in North America to purchase Fair Trade beans and has never looked back. In June of 2007, Kicking Horse Coffee made a promise to the global economy and now only roasts Organic Fair Trade beans. Kicking Horse Coffee was one of the original organic coffees on the market and has created a path for many independent roasters to realize their dreams. Consumers enjoy choice, however they also identify with brands they trust and all sales reports indicate Kicking Horse Coffee is the brand that will keep consumers coming back for more... because life is too short to be drinking the wrong cup of coffee.

Product Name	Size	Order Code
454 Horse Power	6x454g	10093
